PROJECTS

Betarget

- It's a cloud CRM for automating recruitment and maintaining a candidate database
- We worked on it as a team: me as the lead frontend developer, 2 backend developers and one designer
- My stack on this project: Vue.js, Pinia, JavaScript, SCSS, Vite, Docker

Recipe Book

- SPA where you can search for meals by name, ingredients, area and category. All filters work without reloading the page. Also you can view the original resource or YouTube video of any recipe
- My stack on this project: Vue.js, Pinia, CSS, Vite, Tailwind
